Meanwhile, the Company is aiming to reduce cross-shareholdings by appropriately selling those shares deemed unnecessary. Furthermore, the Company verifies the benefits and risks of holding listed shares for cross-shareholding purposes along with profitability in light of capital costs and other factors at the Board of Directors on an annual basis. (iii) Board Policies and Procedures in Determining the Remuneration of the Senior Management and Directors

The policy on determining the amount and the calculation method of remuneration for the Company’s Senior Management and Directors, as described below, was resolved at the 947th meeting of the Company’s Board of Directors held on February 26, 2021, taking into account the deliberations and reports by the Nomination/Remuneration Committee.

a. Policy on determining the amount and the calculation method of remuneration of the Senior Management and Directors and the method of determination

The Group upholds the corporate philosophy that “We contribute to the progression of society through innovative technology, with respect for both individuals and the global environment.” Based on this philosophy, the Company has designed its Senior Management and Directors’ remuneration system in a way that clarifies management responsibilities while also providing an incentive toward improving our corporate value over the medium-to-long term through sustained growth.

The remuneration for Inside Directors who are not Audit and Supervisory Committee Members and Senior Executive Officers is comprised of (1) a fixed monthly remuneration, (2) bonuses, as performance-linked remuneration, and (3) stock remuneration, at a ratio of roughly 50%, 35%, and 15%, respectively. The monthly remuneration for Inside Directors who are not Audit and Supervisory Committee Members is calculated within the limits approved by the general meeting of shareholders, based on the remuneration table provided in the internal regulations according to their job positions, with comprehensive consideration given to their responsibilities and other reference points such as external remuneration survey data. The Board of Directors has resolved to delegate the determination of individual remuneration to the President & CEO (Takeshi Aoki, mainly in charge of overseeing overall business execution), who is best qualified to make a comprehensive assessment of each recipient including their job performance, taking account of the deliberations and reports by the Nomination/Remuneration Committee on individual payment amounts. In addition, bonuses are paid in cash once a year after the end of each fiscal year within the total amount that is calculated based on a prescribed formula approved by the general meeting of shareholders. The amount allocated to each individual is determined based on the degree of contribution by each Inside Director who is not an Audit and Supervisory Committee Member to the Company’s operations. The Board of Directors has resolved to delegate the determination of individual bonuses to the President & CEO, who is best qualified to make a final assessment on the degree of contribution by each recipient to the Company’s operating results, taking account of the deliberations and reports by the Nomination/Remuneration Committee on individual payment amounts.

The monthly remuneration for Senior Executive Officers is calculated based on the remuneration table provided in internal regulations according to their positions, with comprehensive consideration given to the appropriate balance with Inside Directors who are not Audit and Supervisory Committee Members, evaluation of their individual job performance, and other reference points such as external remuneration survey data. The Board of Directors has resolved to delegate the determination of such remuneration to the President & CEO, taking account of the deliberations and reports by the Nomination/Remuneration Committee. In addition, bonuses are calculated based on the degree of contribution by each Senior Executive Officer to the Company’s operating results. The Board of Directors has resolved to delegate the determination of such bonuses to the President & CEO, taking account of the deliberations and reports by the Nomination/Remuneration Committee.

Outside Directors who are not Audit and Supervisory Committee Members and Members of the Audit and Supervisory Committee, being in positions independent of business execution, are only paid fixed remuneration of a certain amount within the limits approved by the general meeting of shareholders.

b. Summary of the resolutions of the general meeting of shareholders regarding remuneration of the Senior Management and Directors

(1) At the 164th Ordinary General Meeting of Shareholders held on June 16, 2017, the amount of monthly remuneration for Directors who are not Audit and Supervisory Committee Members was resolved to be 30 million yen: not more

than 5 million yen for Outside Directors (of whom there were three (3) at the time of the resolution), and not more than 25 million yen for other Directors (of whom there were four (4) at the time of the resolution.)

(2) At the 164th Ordinary General Meeting of Shareholders held on June 16, 2017, the total amount of bonuses to be paid to Inside Directors who are not Audit and Supervisory Committee Members (of whom there were four (4) at the time of the resolution) was resolved to be the sum of 0.5% of profit attributable to owners of parent for each fiscal year and 1.6% of the total amount of annual dividends for such fiscal year (provided, however, that the sum shall not exceed 440 million yen annually, with any amount less than 1 million yen resulting from the calculation to be rounded down). Profit attributable to owners of parent and the total amount of annual dividends have been adopted as performance indicators for the calculation of the total amount of bonuses, as an indicator that functions as incentive toward the Group's sustained growth and the enhancement of corporate value, while also being linked to the interests of the shareholders.

(3) With regard to stock remuneration for Inside Directors who are not Audit and Supervisory Committee Members, a resolution was passed at the 164th Ordinary General Meeting of Shareholders held on June 16, 2017, to introduce a stock remuneration plan using a trust for a period of three (3) years, with the amount of cash contribution during the trust period of up to 270 million yen, for Inside Directors who are not Audit and Supervisory Committee Members (of whom there were four (4) at the time of the resolution), to clarify the link between the Company's stock value and the remuneration for Directors, and thereby elevate their awareness of contributing to improving operating results and increasing corporate value over the medium-to-long term. Under the plan, points are granted according to the amount of payment calculated using a formula provided in internal regulations on the basis of the recipients' position and the amount of monthly remuneration and bonus for the previous fiscal year, converted at one point to one share (provided, however, that the total number of points to be granted is limited to 100,000 points per fiscal year), and shares are accordingly granted to the recipients at the time of their retirement.

(4) At the 164th Ordinary General Meeting of Shareholders held on June 16, 2017, the amount of remuneration for Directors who are Audit and Supervisory Committee Members (of whom there were five (5) at the time of the resolution) was resolved to be not more than 13 million yen per month.

- ③ The data was aggregated and analyzed by the external institution by separating Inside Directors from Outside Directors.

Masaki HORIE	○	Mr. Horie is currently an Outside Director of Futaba Industrial Co. Ltd. Although our company has sold products to Futaba Industrial Co. Ltd., these sales accounted for less than 2% of our company's sales for FY2022, so we deem this to be insignificant.	Mr. Horie has extensive knowledge and experience as a Certified Public Accountant. As he presents no potential conflict of interest with general shareholders, we are convinced that we can expect him to offer appropriate advice and oversight of the business based on his knowledge and experience.
